

SUMMARY OF RULE REVISIONS FOR RULE 200 (PERMIT REQUIREMENTS)

Maricopa County is proposing to revise Rule 200 (Permit Requirements) in order to incorporate Operation And Maintenance Plan provisions and to incorporate some rather significant format and text changes that will make Rule 200 more understandable.

Maricopa County conducted Public Workshop #1 on March 5, 1998. In Rule 200 draft April 16, 1998, Maricopa County made revisions per verbal comments made during Public Workshop #1 and per verbal comments made during a Staff Workshop held on April 2, 1998; Such revisions are underlined below.

Maricopa County conducted Public Workshop #2 on April 16, 1998. In Rule 200 draft May 28, 1998, Maricopa County made revisions per verbal comments made during Public Workshop #2, per written comments received on May 1, 1998, and per a Staff Workshop held on May 26, 1998. Such revisions are double-underlined below.

Maricopa County conducted Public Workshop #3 on May 28, 1998. In Rule 200 draft August 20, 1998, Maricopa County made revisions per written comments received in June 1998 and in July 1998 and per Staff Workshops held on June 22, 1998 and held on June 25, 1998. Such revisions are dotted-underlined below.

Maricopa County conducted Public Workshop #4 on August 20, 1998. In Rule 200 draft October 15, 1998, Maricopa County made revisions per verbal and written comments received during and after Public Workshop #4. Such revisions are “words-only” underlined below.

Maricopa County conducted Public Workshop #5 on October 15, 1998. In Rule 200 draft January 21, 1999, Maricopa County made revisions per verbal and written comments received during and after Public Workshop #5. Such revisions are in **bold** below.

Maricopa County conducted Public Workshop #6 on January 21, 1999. In Rule 200 draft February 18, 1999, Maricopa County made revisions per verbal and written comments received during and after Public Workshop #6. Such revisions are in *italicized text* below.

Maricopa County will conduct Public Workshop #7 on February 18, 1999 at 9 am in Maricopa County offices located at 1001 North Central Avenue. During Public Workshop #7, Maricopa County will discuss all proposed revisions to Rule 200, including the following:

-
- Section 101 (Purpose): In Rule 200, Section 101 draft October 15, 1998, added the text, “of air pollution”. Section 101 reads: “To provide an orderly procedure for the review of new

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

sources of air pollution and for the modification and operation of existing sources of air pollution through the issuance of permits". In Rule 200 draft February 18, 1999, changed Section 101 to read: *Rule 200 describes the permitting requirements for new sources of regulated air pollutants and for the modification and operations of existing sources of regulated air pollutants".*

- “New” Section 102 (Effective Date Of This Rule): In Rule 200 draft April 16, 1998, added Section 102 regarding the effective date of Rule 200. *In Rule 200 draft February 18, 1999, added Section 102 (Applicability). Section 102 reads: “Rule 200 applies to the permitting requirements for new sources of regulated air pollutants and for the modification and operation of existing sources of regulated air pollutants”.*

- “New” Section 200 (Definitions (Not Included)): *In Rule 200 draft February 18, 1999, added, as Section 200, the text, “See Rule 100 (General Provisions And Definitions) of these rules for definitions of terms used in this rule”.*

- Section 301: In Rule 200, Section 301 draft April 16, 1998, added and revised text from Rule 200, Subsection 303.3(c) regarding permits required. Reworded text in “introduction” paragraph to make it clear how Subsections 301.1-301.11 relate to Section 301. In Rule 200, Section 301 draft May 28, 1998, deleted all references to “permit revisions”, added the following language: “For sources already possessing a permit, permit revisions shall be made in accordance with Rule 210 for Title V sources or Rule 220 for Non-Title V sources”, and moved to New Subsection 301.12 the second sentence, “In addition, the owner or operator of a source must obtain a permit or a permit revision from the Control Officer before commencing construction of, operating, or making a modification, if the aggregate of all miscellaneous equipment, processes, or production lines has total uncontrolled emissions of more than three pounds (1.4 kg) volatile organic compounds (VOCs) or fine particulate matter (PM-10) or more than 5.5 pounds (2.5 kg) of any other regulated air pollutant during any consecutive 24-hour period”. In Rule 200, Section 301 draft August 20, 1998, added, as a first sentence, the statement: “The following subsections, Subsection 301.1 through 301.11 of this rule, list activities for which a permit is required” and added as a third sentence, the statement: “Exemptions to the requirement for obtaining a permit are found in Section 302 of this rule”. Also, deleted the text, “or making a modification to”, from what is now the second sentence. In Rule 200 draft October 15, 1998, made the following changes in Section 301: 1) changed the title to “Standards For Permits Required”; 2) changed the first sentence to read as follows: “The following subsections of this rule, Subsections 301.1 thru 301.14, describe standards for activities that require a permit”; and 3) changed the third sentence to read as follows: “Standards for permit exemptions are described in Section 302 of this rule”. **In Rule 200 draft January 21, 1999, added, as the third sentence in Section 301, the text, “In addition, the owner or operator of a source, that conducts an activity that is subject to a standard described in Maricopa County Air Pollution Control Regulations Regulation III (Control Of Air Contaminants), must first obtain a permit before commencing construction of or operating such activity”.** In Rule 200 draft February 18, 1999, deleted, from Section 301, the text, “In addition, the owner or operator of a source, that conducts an activity that is subject to a standard described in Maricopa County Air Pollution Control Regulations Regulation III (Control Of Air Contaminants), must first obtain a permit before

2

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

commencing construction of or operating such activity”, and added the text, “Whenever more than one standard in this rule applies to a source or whenever a standard in this rule and a standard in the Maricopa County Air Pollution Control Regulations Regulation III (Control Of Air Contaminants) applies to any source, the rule or combination of rules resulting in the lowest rate or lowest concentration of regulated air pollutants released to the atmosphere shall apply, unless otherwise specifically exempted or designated”.

• “New” Subsection 301.1: In Rule 200 draft May 28, 1998, added the following sentence to Subsection 301.1: “In addition to an Earthmoving Permit, a source may be required to also obtain an Operating Permit. See Rule 202 (Permit Requirements For Earthmoving operations) and Rule 310 (Open Fugitive Dust Sources)”. In Rule 200 draft October 15, 1998, made the following changes to Subsection 301.1: 1) changed the title to “Dust Generating Operations And/Or Earthmoving Operations”; 2) changed the first sentence to read as follows: “The owner or operator of a source shall obtain an Earthmoving Permit for any dust generating operation and/or earthmoving operation that disturbs a total surface area of 0.10 acre or more”; and 3) changed the third sentence to read as follows: “See Maricopa County Air Pollution Control Regulations Rule 202 (Permit Requirements For Open Fugitive Dust Sources) and Rule 310 (Emission Standards And Control Measures Required For Open Fugitive Dust Sources)”. In Rule 200 draft February 18, 1999, changed the title of Subsection 301.1 to “Earthmoving Operations”, deleted the text, “dust generating operation and/or”, deleted the text, “an Operating Permit”, and added the text, “other permit(s), depending on whether or not other activities are to be conducted in conjunction with the earthmoving operation”.

• “New” Subsection 301.2: In Rule 200 draft May 28, 1998, added the following sentence to Subsection 301.2: “In addition to a permit for open outdoor fires, a source may be required to also obtain an Operating Permit. See Rule 203 (Permit Requirements For Open Outdoor Burning Activities) and Rule 314 (Open Outdoor Fires)”. In Rule 200 draft October 15, 1998, made the following changes to Subsection 301.2: 1) changed the first sentence to read as follows: “The owner or operator of a source shall obtain a permit for any open outdoor fire authorized under the exceptions in ARS §49-501 or Rule 314 of these rules”; and 2) changed the second sentence to read as follows: “In addition to a permit for open outdoor fires, the owner or operator of such source may also be required to obtain an Operating Permit”; and 3) changed the third sentence to read as follows: “See Maricopa County Air Pollution Control Regulations Rule 203 (Permit Requirements For Open Outdoor Burning Activities) and Rule 314 (Open Outdoor Fires)”. In Rule 200 draft February 18, 1999, added the text, “required by Rule 203 (Permit Requirements For Open Outdoor Burning Activities) and/or by” and changed the second sentence to read: “In addition to a Burn Permit, the owner or operator of such source may also be required to obtain other permit(s), depending on whether or not other activities are to be conducted in conjunction with the open outdoor fires”.

• “New” Subsection 301.3(a): In Rule 200 draft October 15, 1998, changed the beginning of the sentence in Subsection 301.1(a), “A source that emits...”, to “The owner or operator of a source shall obtain a permit, if such source emits...”.

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

- “New” Subsection 301.3(b): In Rule 200 draft October 15, 1998, changed the beginning of the sentence in Subsection 301.3(b), “A source that is...”, to “The owner or operator of a source shall obtain a permit, if such source is...”.
- “New” Subsection 301.4: In Rule 200 draft October 15, 1998, changed the beginning of the sentence in Subsection 301.4, “Any source subject to standards...”, to “The owner or operator of a source shall obtain a permit, if such source is subject to standards...”.
- “New” Subsection 301.5(a): In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.5(a).
- “New” Subsection 301.5(b): In Rule 200, Subsection 301.5(b) draft April 16, 1998, changed “500,000” to “more than 1,000,000 BTU per hour for more than an eight-hour period” to match Arizona Department Of Environmental Quality (ADEQ) rule R18-2-302, which was adopted March 23, 1998. In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.5(b).
- “New” Subsection 301.6(a): In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.6(a). In Rule 200 draft January 21, 1999, added, to end of Subsection 301.6(a), the term, “stationary”.
- “New” Subsection 301.6(b): In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.6(b).
- “New” Subsection 301.6(c): In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.6(c).
- “New” Subsection 301.6(d): In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.6(d). In Rule 200 draft January 21, 1999, deleted new Subsection 301.6(d), “The owner or operator of a source shall obtain a permit, if such source operates portable internal combustion engines used on a temporary basis more than 30 consecutive days per calendar year at any one facility”. Re-arranged and re-lettered the remaining subsections of Subsection 301.6.
- “New” Subsection 301.6(e): In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.6(e). In Rule 200 draft February 18, 1999, added Subsection 301.6(e), which reads: *“The owner or operator of a portable source shall obtain a permit, if such portable source is used on a temporary basis for more than 90 days per calendar year at any one*

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

facility or emits more than 5 tons of a regulated air pollutant, over 90 days per calendar year at any one facility”.

• “New” Subsection 301.7: In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.7. In Rule 200 draft January 21, 1999, deleted the text, “or more”, and added the text, “more than”. Subsection 301.7 reads: “Liquid Storage Tanks: The owner or operator or a source shall obtain a permit, if such source operates stationary storage tanks with a capacity of more than 250 gallons (946 liters) used for storing organic liquids with a true vapor pressure of 1.5 psia (77.5 mm Hg) or more.

• “New” Subsection 301.8(a): In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit for”, to the beginning of the sentence in Subsection 301.8(a).

• “New” Subsection 301.8(b): In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.8(b).

• “New” Subsection 301.8(c): In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.8(c).

• “New” Subsection 301.8(d): In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.8(d).

• “New” Subsection 301.9: In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.9. In Rule 200 draft January 21, 1999, re-wrote the introductory statement to Subsection 301.9 to correspond with the applicability statement in Rule 331 (Solvent Cleaning). Subsection 301.9 reads: **“Solvent Cleaning Equipment: The owner or operator of a source shall obtain a permit, if such source emits VOCs from operating any solvent cleaning equipment that:...”**. In Rule 200 draft February 18, 1999, added, to Subsection 301.9(a), the text, *“above 120°F (49°C); or”,* and added, to Subsection 301.9(c), the text, *“(i.e., an emission control system consisting of a hood or enclosure to collect emissions, which are vented to a process device, as described in Rule 331 (Solvent Cleaning) of these rules); or”.*

• “New” Subsection 301.9(d) and Subsection 301.9(e): In Rule 200 draft August 20, 1998, deleted the text, “an organic solvent”, from Subsections 301.9(d) and 301.9(e) and added the text, “a cleaning solvent with a VOC”. Subsection 301.9(d) now reads: “Has an open surface area of more than 10.8 square feet (one square meter), has an internal volume of more than 92.5 gallons (350 liters), and has a cleaning solvent with a VOC loss of more than three gallons per day” and Subsection 301.9(e) now reads: “Uses organic solvents with an initial boiling point of less than 302°F (150°C) and has a cleaning solvent with a VOC loss of more than three gallons per day”.

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

- “New” Subsection 301.10: In Rule 200 draft October 15, 1998, added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence in Subsection 301.10. In Rule 200 draft February 18, 1999, changed the title, of Subsection 301.10, to “Equipment In Eating Establishments”.
- “New” Subsection 301.11(a): In Rule 200 draft October 15, 1998, made the following changes to Subsection 301.11(a): 1) re-labeled the subsection from Subsection 301.11(a) to Subsection 301.11; 2) added the title, “Soil Remediation Projects”; and 3) added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence.
- “New” Subsection 301.11(b): In Rule 200 draft May 28, 1998, added the following sentence to Subsection 301.11(b): “See Subsection 302.17 of this rule for an exemption to this requirement”. In Rule 200 draft October 15, 1998, made the following changes to Subsection 301.11(b): 1) re-labeled the subsection from Subsection 301.11(b) to Subsection 301.12; 2) added the title, “Abrasive Blasting Equipment”; and 3) added, “The owner or operator of a source shall obtain a permit, if such source operates”, to the beginning of the sentence.
- “New” Subsection 301.11(c): In Rule 200 draft August 20, 1998, added the text “this usage does not include water” to Subsection 301.11(c). Subsection 301.11(c) now reads, in part: “Any acid usage (this usage does not include water), as used in solution or otherwise, of more than 50 gallons (189 liters) per year in either of the following...”. In Rule 200 draft October 15, 1998, made the following changes to Subsection 301.11(c): 1) re-labeled the subsection from Subsection 301.11(c) to Subsection 301.13; 2) added the title, “Acid Usage”; and 3) deleted the first sentence.
- “New” Subsection 301.11(c)(1): In Rule 200 draft October 15, 1998, re-labeled the subsection from Subsection 301.11(c)(1) to Subsection 301.13(a) and added, “The owner or operator of a source shall obtain a permit, if such source uses any uses any acid (this usage does not include water), as used in solution or otherwise, of more than 50 gallons (189 liters) per year, that is...”, to the beginning of the sentence.
- “New” Subsection 301.11(c)(2): In Rule 200 draft October 15, 1998, re-labeled the subsection from Subsection 301.11(c)(2) to Subsection 301.13(b) and added, “The owner or operator of a source shall obtain a permit, if such source uses any uses any acid (this usage does not include water), as used in solution or otherwise, of more than 50 gallons (189 liters) per year, that is...”, to the beginning of the sentence.
- “New” Subsection 301.11(d): In Rule 200 draft August 20, 1998, deleted Subsection 301.11(d), because alkaline solution usage is addressed in Subsection 301.12. Re-lettered the subsequent subsection. In Rule 200 draft October 15, 1998, made the following changes to Subsection 301.11(d): 1) re-labeled the subsection from Subsection 301.11(d) to Subsection 301.14; 2) added the title, “Wood Working Equipment”; and 3) added, “The owner or operator of a source shall obtain a permit, if such source operates...”, to the beginning of the sentence.

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

• “New” Subsection 301.12: In Rule 200 draft May 28, 1998, added New Subsection 301.12, which was the second sentence in Section 301 and which reads: “Activities Not Addressed/Covered In Subsections 301.1-301.11: The owner or operator of a source must obtain a permit from the Control Officer before commencing construction of, operating, or making a modification, if the aggregate of all miscellaneous equipment, processes, or production lines has total uncontrolled emissions of more than three pounds (1.4 kg) volatile organic compounds (VOCs) or fine particulate matter (PM-10) or more than 5.5 pounds (2.5 kg) of any other regulated air pollutant during any consecutive 24-hour period”. In Rule 200 draft August 20, 1998, added, as the first sentence to Subsection 301.12, the statement: “This subsection applies to activities not identified in Section 301 and Section 302 of this rule”. In Rule 200 draft October 15, 1998, made the following changes to Subsection 301.12: 1) moved the text of Subsection 301.12 to New Subsection 303 (Permits Required For Activities Not Described In Section 301 Nor In Section 302 Of This Rule) and changed the text to the following: “If the owner or operator of a source conducts activities that are NOT described in Section 301 of this rule nor in Section 302 of this rule, but the owner or operator of such source conducts activities such that the aggregate of all miscellaneous equipment, processes, or production lines has total uncontrolled emissions of more than three pounds (1.4 kg) volatile organic compounds (VOCs) or fine particulate matter (PM-10) or more than 5.5 pounds (2.5 kg) of any other regulated air pollutant during any consecutive 24-hour period, then the owner or operator of such source shall obtain a permit from the Control Officer before commencing construction of, operating, or making a modification to such source. In Rule 200 draft February 18, 1999, added, to Subsection 301.12, the text, “and shall comply with the requirements of Rule 312 (Abrasive Blasting) of these rules”.

• **“New” Subsection 301.13: In Rule 200 draft January 21, 1999, deleted, from Subsection 301.13(a), the text, “that is heated to 160 °F or more”, moved Subsection 301.13(a) to the introduction of Subsection 301.13, “The owner or operator of a source shall obtain a permit, if such source uses any acid (this usage does not include water), in solution or otherwise, of more than 50 gallons (189 liters) per year”, and deleted Subsection 301.13(b), “The owner or operator of a source shall obtain a permit, if such source uses any acid (this usage does not include water), as used in solution or otherwise, of more than 50 gallons (189 liters) per year, that is used in concentrations of five percent or more”. Changed Subsection 301.13 (Acid Usage) to read: “Corrosive Liquid Usage: **The owner or operator of a source shall obtain a permit, if such source uses any corrosive liquid (this usage does not include water), in solution or otherwise, of more than 50 gallons (189 liters) per year. For the purposes of this section, a corrosive liquid (i.e., a strong acid or a strong base) is defined as a liquid with a pH less than 2.0 and/or with a pH greater than 12.5, and which emits a regulated air pollutant”.****

• *“New” Subsection 301.14 (Wood Working Equipment): In Rule 200 draft February 18, 1999, added the term, “stationary”.*

• Section 302: In Rule 200 draft April 16, 1998, deleted Section 302 and added and revised text from Rule 200, Section 307 regarding exemptions. In Rule 200 draft October 15, 1998, changed the title of Section 302 from “Exemptions” to “Standards For Permit Exemptions” and changed the first two sentences as follows: “Pursuant to this section, the owner or operator of a source is

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

not required to obtain a permit for the activities described in Subsection 302.1 thru Subsection 302.17 of this rule. However, if operation of such source without a permit, would result in a violation of the Act, then the owner or operator of such source shall obtain the appropriate permit”.

- “New” Subsection 302.1: In Rule 200 draft October 15, 1998, added the title, “Residential Wood Heaters” to Subsection 302.1 and added, “The owner or operator of a source is not required to obtain a permit, if such source is subject to...”, to the beginning of the first sentence.
- “New” Subsection 302.2: In Rule 200 draft October 15, 1998, added the title, “Federal Hazardous Air Pollutant Program” to Subsection 302.2 and added, “The owner or operator of a source is not required to obtain a permit, if such source...”, to the beginning of the first sentence. In Rule 200 draft January 21, 1999, added the title, “Standards For Demolition And Renovation Of Asbestos-Containing Structures”, to the reference, 40 CFR 61.145.
- “New” Subsection 302.3: In Rule 200 draft October 15, 1998, added the title, “Agricultural Equipment” to Subsection 302.3 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence.
- “New” Subsection 302.4: In Rule 200 draft October 15, 1998, added the title, “Dust Generating Operations And/Or Earthmoving Operations” to Subsection 302.4 and divided the text into two subsections, Subsection 302.4(a) and Subsection 302.4(b). In Rule 200 draft February 18, 1999, changed Subsection 302.4 to read, “Earthmoving Operations: The owner or operator of a source is not required to obtain a permit, if such source meets the exemption criteria described in Rule 202 (Permit Requirements For Earthmoving Operations) of these rules”.
- “New” Subsection 302.4(a): In Rule 200 draft October 15, 1998, added Subsection 302.4(a), which reads as follows: “The owner or operator of a source is not required to obtain a permit, if such source operates dust generating operations and/or earthmoving operations for emergency repair of utilities, paved roads, unpaved roads, shoulders, and/or alleys”.
- “New” Subsection 302.4(b): In Rule 200 draft October 15, 1998, added Subsection 302.4(b), which reads as follows: “The owner or operator of a source is not required to obtain a permit, if such source operates dust generating operations and/or earthmoving operations by a homeowner and/or for a homeowner for individual residential purposes”.
- “New” Subsection 302.5: In Rule 200 draft October 15, 1998, added the title, “Hazardous Air Pollutants - Prevention Of Accidental Releases” to Subsection 302.5 and added, “The owner or operator of a source is not required to obtain a permit, if such source...”, to the beginning of the first sentence.
- “New” Subsection 302.6: In Rule 200 draft October 15, 1998, added the title, “Pressurized Tanks And Vessels” to Subsection 302.6 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence. In

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

Rule 200 draft January 21, 1999, in Subsection 302.6, changed the term, “or”, to the term, “and/or”. Liquid petroleum gas (LPG) is a blend of propane, butane, and perhaps some ethane.

- “New” Subsection 302.7: In Rule 200 draft October 15, 1998, added the title, “Architectural Surface Coating” to Subsection 302.7 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence.
- “New” Subsection 302.8: In Rule 200 draft October 15, 1998, added the title, “Generators And Other Internal Combustion Equipment” to Subsection 302.8 and changed the text to read: “The owner or operator of a source is not required to obtain a permit:...”. In Rule 200 draft January 21, 1999, deleted, from the introduction of Subsection 302.8, the text, “The owner or operator of a source is not required to obtain a permit”. In Rule 200 draft February 18, 1999, changed Subsection 302.8 (Generators And Other Internal Combustion Equipment) to read: “Stand-By Generators: The owner or operator of a source is not required to obtain a permit, if such source operates each of its internal combustion engines at or below 500 hours per year as evidenced by an installed hour meter or as evidenced by written usage records maintained by the operator, operates each of its internal combustion engines such that the total emissions from all such engines do not exceed 4,000 pounds of nitrogen oxides or carbon monoxide per year, and operates each of its internal combustion engines for power, when normal power line service fails”.
- “New” Subsection 302.8(a): In Rule 200 draft October 15, 1998, changed the text of Subsection 302.8(a) to read: “If such source operates each of its internal combustion engines at or below 500 hours per year as evidenced by an installed hour meter or as evidenced by written usage records maintained by the operator.”. In Rule 200 draft January 21, 1999, added, to the beginning of Subsection 302.8(a), the text, “The owner or operator of a source is not required to obtain a permit”.
- “New” Subsection 302.8(b): In Rule 200 draft October 15, 1998, changed the text of Subsection 302.8(b) to read: “And if such source operates each of its internal combustion engines such that the total emissions from all such engines do not exceed 4,000 pounds of nitrogen oxides or carbon monoxide per year;” In Rule 200 draft January 21, 1999, added, to the beginning of Subsection 302.8(b), the text, “And the owner or operator of a source is not required to obtain a permit, if”.
- “New” Subsection 302.8(c): In Rule 200 draft October 15, 1998, added Subsection 302.8(c), which reads: “And if such source operates each of its internal combustion engines for power, when normal power line service fails;”. In Rule 200 draft January 21, 1999, added, to the beginning of Subsection 302.8(c), the text, “And the owner or operator of a source is not required to obtain a permit, if”.
- “New” Subsection 302.8(d): In Rule 200 draft October 15, 1998, added Subsection 302.8(d), which reads: “Or if such source operates each of its internal combustion engines for the emergency pumping of water”. In Rule 200 draft January 21, 1999, added, to the beginning of Subsection 302.8(d), the text, “Or the owner or operator of a source is not required to obtain a permit, if”.

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

- “New” Subsection 302.9: In Rule 200 draft October 15, 1998, added the title, “Motorized Vehicles” to Subsection 302.9 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence. In Rule 200 draft February 18, 1999, re-wrote Subsection 302.9 to read: “Generators And Other Internal Combustion Equipment, Other Than Stand-By Generators: The owner or operator of a source is not required to obtain a permit, if such source operates each of its internal combustion engines for the emergency pumping of water”.
- “New” Subsection 302.10: In Rule 200 draft October 15, 1998, added the title, “Equipment In Eating Establishments” to Subsection 302.10 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence.
- “New” Subsection 302.11: In Rule 200 draft October 15, 1998, added the title, “Bakeries” to Subsection 302.11 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence.
- “New” Subsection 302.12: In Rule 200 draft October 15, 1998, added the title, “Brazing Or Welding Equipment” to Subsection 302.12 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence.
- “New” Subsection 302.13: In Rule 200 draft October 15, 1998, added the title, “Hand Soldering Equipment” to Subsection 302.13 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence.
- “New” Subsection 302.14: In Rule 200 draft October 15, 1998, added the title, “Machining” to Subsection 302.14 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence.
- “New” Subsection 302.15: In Rule 200 draft October 15, 1998, added the title, “Refrigerant Recovery Equipment” to Subsection 302.15 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence.
- “New” Subsection 302.16: In Rule 200 draft October 15, 1998, added the title, “Equipment For Maintaining Established Vegetation, For Building Maintenance, Or For Janitorial Activities” to Subsection 302.16 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence.
- “New” Subsection 302.17: In Rule 200 draft October 15, 1998, added the title, “Self-Contained, Enclosed Blast And Shot Peen Equipment” to Subsection 302.17 and added, “The owner or operator of a source is not required to obtain a permit, if such source operates...”, to the beginning of the first sentence.
- *“New” Subsection 302.18: In Rule 200 draft February 18, 1999, added Subsection 302.18, which reads: “Self-Contained, Enclosed Blast And Shot Peen Equipment: The owner or operator*

10

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

of a source is not required to obtain a permit, if such source operates self-contained, enclosed blast and shot peen equipment, where the total internal volume of the blast section is 50 cubic feet or less and where control measure(s) have been implemented, as required by Rule 312 (Abrasive Blasting) of these rules”.

- *“New” Subsection 302.19: In Rule 200 draft February 18, 1999, added Subsection 302.19, which reads: “Quality Assurance/Quality Control Laboratories: The owner or operator of a source is not required to obtain a permit for a quality assurance/quality control laboratory, that is operated on-site. Such laboratory must still meet all other applicable requirements of Rule 336 (Surface Coating Operations) of these rules”.*

- Section 303: In Rule 200 draft April 16, 1998, deleted Section 303 and added descriptions of the types of permits required. Some of the text came from Rule 200, Sections 302, 303, 304, 305, and 306. In Rule 200 draft October 15, 1998, moved the text of Section 303 (Types Of Permits) to Section 401. Section 303 reads: “Standards For Permits Required For Activities Not Described In Section 301 Nor In Section 302 Of This Rule: If the owner or operator of a source conducts activities that are NOT described in Section 301 of this rule nor in Section 302 of this rule, but the owner or operator of such source conducts activities such that the aggregate of all miscellaneous equipment, processes, or production lines has total uncontrolled emissions of more than three pounds (1.4 kg) volatile organic compounds (VOCs) or fine particulate matter (PM-10) or more than 5.5 pounds (2.5 kg) of any other regulated air pollutant during any consecutive 24-hour period, then the owner or operator of such source shall obtain a permit from the Control Officer before commencing construction of, operating, or making a modification to such source”.

- “New” Subsection 303.2: In Rule 200, Subsection 303.2 draft May 28, 1998, changed the heading from “Controlled Open Burning Permit” to “Burn Permit”.

- “New” Subsection 303.2(a): In Rule 200, Subsection 303.2(a) draft May 28, 1998, changed the term “Controlled Open Burning Permit” to “Burn Permit”.

- “New” Subsection 303.2(b): In Rule 200, Subsection 303.2(b) draft May 28, 1998, changed the term “Controlled Open Burning Permit” to “Burn Permit” and corrected the reference to the title of Rule 203 from “Controlled Open Burning” to “Permit Requirements For Open Outdoor Burning Activities”.

- Section 304: In Rule 200 draft April 16, 1998, deleted Section 304 and added and revised text from Rule 220, Subsection 301.4 regarding permit protection. In Rule 200 draft October 15, 1998, moved the text of Section 304 (Permit Protections) to Section 404 and added the following text: “Standards For Activities Not Described In Section 301, Nor In Section 302, Nor In Section 303 Of This Rule: If the owner or operator or a source conducts activities that are NOT described in Section 301, nor in Section 302, nor in Section 303 of this rule, then the owner or operator of such source must notify the Control Officer of such activities”. Rule 200 draft January 21, 1999, added, to Section 304, the text, “that emit regulated air pollutants, but such activities”. Section 304 reads: “Standards For **Activities Not Described In Section 301, Nor In Section 302, Nor In Section 303 Of This**

11

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

Rule: If the owner or operator or a source conducts activities that emit regulated pollutants, but such activities are NOT described in Section 301, nor in Section 302, nor in Section 303 of this rule, then the owner or operator of such source must notify the Control Officer of such activities". *In Rule 200 draft February 18, 1999, deleted Section 304 (Standards For Activities Not Described In Section 301, Nor In Section 302, Nor In Section 303 Of This Rule).*

- Section 305: In Rule 200 draft April 16, 1998, deleted Section 305 and added revised text from Rule 200, Section 308 regarding standards for applications. In Rule 200 draft October 15, 1998, changed the title of Section 305 from "Standards For Applications" to "Permit Applications" and moved text to Section 402. **In Rule 200 draft January 21, 1999, moved Section 412 (Operation And Maintenance (O&M) Plans to Section 305. In the first sentence of the introductory sentence of Section 412, deleted the text, "either by a valid permit". In the second sentence of Subsection 412.2, deleted the text, "in the manner and on the form as described by the Control Officer in the most recent version of the Operation And Maintenance (O&M) Plan Guidelines".** *In Rule 200 draft February 18, 1999, re-numbered the section regarding O&M Plans to Section 304. Changed the introductory paragraph to read: "Operation And Maintenance (O&M) Plans: A facility operator, of any emission control system that is required by these rules, shall prepare, with any permit application, and shall comply with, an Operation And Maintenance (O&M) Plan written according to Subsection 304.1 of this rule. If the Control Officer approves the permit, then the O&M Plan is also considered to be approved. However, if the Control Officer issues a written disapproval of the O&M Plan, then a facility operator shall submit to the Control Officer a corrected O&M Plan and the Control Officer will not approve the permit, until the facility operator has adequately addressed the disapproval of the O&M Plan".*

- Section 306: In Rule 200 draft April 16, 1998, deleted Section 306 and added and revised text from Rule 200, Section 309 regarding permit conditions. In Rule 200 draft October 15, 1998, moved text of Section 306 (Permit Conditions) to Section 403.

- Section 307: In Rule 200 draft April 16, 1998, deleted Section 307 and added and revised text from Rule 200, Section 310 regarding permit tampering. In Rule 200 draft October 15, 1998, moved text of Section 307 (Permit Tampering) to Section 405.

- Section 308: In Rule 200 draft April 16, 1998, deleted Section 308 and added and revised text from Rule 200, Section 311 regarding permit posting requirements. In Rule 200, Section 308 draft May 28, 1998, deleted the term "complete" and added the terms, "with all its associated documents". Rule 200, Section 308 draft May 28, 1998, reads: "Any person who has been granted a permit shall keep such permit with all its associated documents accessible on the site where the permitted activity is occurring". In Rule 200, Section 308 draft August 20, 1998, returned the term "complete" and added the statement: "For the purposes of this section, "complete" means the authentic permit that has been signed by the Control Officer, the permit conditions, and the equipment list". Rule 200, Section 308 draft August 20, 1998 now reads: "Any person who has been granted a permit shall keep the complete permit accessible on the site where the permitted activity is occurring. For the purposes of this section "complete" means the authentic permit that has been signed by the Control Officer, the permit conditions, and the

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

"Words-only" underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

equipment list". In Rule 200 draft October 15, 1998, moved text of Section 308 (Permit Access) to Section 406.

- Section 309: In Rule 200 draft April 16, 1998, deleted Section 309 and added and revised Rule 200, Section 313 regarding accelerated permitting. In Rule 200 draft October 15, 1998, moved text of Section 309 (Accelerated Permitting) to Section 411.
- Section 310: In Rule 200 draft April 16, 1998, moved and revised Section 310 regarding permit modification/permit tampering to Rule 200, Section 307.
- "New" Section 310: In Rule 200 draft April 16, 1998, added Section 310 regarding Operation And Maintenance (O&M) Plans. This text is currently being deleted from Regulation III rules, in which O&M Plans are described/required. The following changes were made from Rule 200 draft February 11, 1998, that was distributed at Public Workshop #1 on March 5, 1998, and now appear in Rule 200 draft April 16, 1998: 1) Modified the first sentence in Section 310; 2) Deleted the last sentence in Section 310; 3) Re-worded Subsection 310.1(c); 4) Re-worded and moved the text in Subsection 310.2 to Section 310; and 5) Shortened the heading for Subsection 310.3. The following changes were made from Rule 200 draft April 16, 1998, that was distributed at Public Workshop #2 on April 16, 1998, and now appear in Rule 200 draft May 28, 1998: 1) Deleted the term "complete" from the second sentence. The sentence now reads: "A facility operator shall, with any permit application, submit to the Control Officer, the facility's O&M Plan written according to Subsection 310.1 of this rule" and 2) Deleted the term "original" from the last sentence and added the terms "most recently submitted". The sentence now reads: "A facility operator shall submit to the Control Officer a corrected O&M Plan subsequent to a written disapproval by the Control Officer of the most recently submitted O&M Plan." In Rule 200, Section 310 draft August 20, 1998, deleted the requirement of an O&M Plan for process equipment. Rule 200, Section 310 draft August 20, 1998 now reads: "A facility operator shall prepare and comply with, for any emission control system that is required either by a valid permit or by these rules, an Operation And Maintenance (O&M) Plan written according to Subsection 310.1 of this rule". In Rule 200 draft October 15, 1998, moved text of Section 310 (Operation And Maintenance (O&M) Plans) to Section 412.
- "New" Subsection 310.1(a): In Rule 200, Subsection 310.1(a) draft May 28, 1998, deleted the terms "such as temperatures, transfer rates, pressures, and/or flow rates" and added the terms "as described in each source-specific O&M Plan." Subsection 310.1(a) now reads: "Key system operating parameters, as described in each source-specific O&M Plan, necessary to determine compliance with these rules".
- "New" Subsection 310.2(a): In Rule 200 draft May 28, 1998, reworded Subsection 310.2(a) to read as follows: "Changes in an O&M Plan that involve the operation of the control device (i.e., recordkeeping) must be approved before such changes are allowed to occur. The facility operator shall submit to the Control Officer a corrected O&M Plan with the exact description of all changes that the facility operator proposes and with a demonstration (i.e., mass balance and/or stack test data) of the effectiveness of the control device. If the Control Officer does not submit a written denial to the facility operator regarding the corrected O&M Plan within 30 days

13

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

"Words-only" underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

of the submittal of the corrected O&M Plan, the corrected O&M Plan is deemed to be approved. In addition, if the facility operator does not correct any deficiencies in the corrected O&M Plan within 30 days of receiving a written notification of such deficiencies from the Control Officer, the O&M Plan is deemed to be denied. In Rule 200, Subsection 310.2(a) draft August 20, 1998, changed text to read that advanced approval is necessary for any changes in operating parameters. Subsection 310.2(a) now reads in part: "Changes in an O&M Plan that involve the operation of the control device (i.e., recordkeeping) must be approved before such changes are allowed to occur. The facility operator shall submit to the Control Officer a corrected O&M Plan with the exact description of all changes that the facility operator proposes and with a demonstration (i.e., mass balance and/or stack test data) of the effectiveness of the control device..."

• "New" Subsection 310.2(b): In Rule 200, Subsection 310.2(b) draft May 28, 1998, reworded Subsection 310.2(b) to read as follows: "Changes in an O&M Plan that are any other than those changes described in Subsection 310.2(a) of this rule must be made in a corrected O&M Plan and must be submitted to the Control Officer for review within ten days of such changes. Within five working days of a written disapproval of such changes, either the original O&M Plan shall be reinstated or an alternative, negotiated with the affected facility and approved in writing by the Control Officer, shall be instituted. The facility operator is not required to submit to the Control Officer a corrected O&M Plan for such changes, unless the Control Officer requests such corrected O&M Plan". In Rule 200, Subsection 310.2(b) draft August 20, 1998, deleted Subsection 310.2(b) entirely.

• Section 311: In Rule 200 draft April 16, 1998, moved and revised Section 311 regarding permit posting required/permit access to Rule 200, Section 308.

• Section 312: In Rule 200 draft April 16, 1998, moved Section 312 regarding the transition from the installation and operating permit program to the unitary permit program to Rule 200, new Appendix A.

• Section 313: In Rule 200 draft April 16, 1998, moved Section 313 regarding accelerated permitting to Rule 200, Section 309.

• Section 401: In Rule 200 draft April 16, 1998, deleted Rule 200, Section 401 and added and revised text from Rule 200, Section 402 regarding permit reopenings. In Rule 200 draft October 15, 1998, moved Section 401 (Permit Reopenings) to Section 407.

• *Subsection 401.1(a): In Rule 200 draft February 18, 1999, changed Subsection 401.1(a) to read: "An Earthmoving Permit is issued for any earthmoving operation that disturbs a total surface area of 0.10 acre or more".*

• **Subsection 401.2(a): In Rule 200 draft January 21, 1999, changed the term, "flue", to the term, "chimney". Subsection 401.2(a) reads: "A Burn Permit is issued to limit the emissions of air contaminants produced from combustion of any type of material**

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

"Words-only" underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

outdoors, where the products of combustion are not directed through a chimney". *In Rule 200 draft February 18, 1999, changed the text, "air contaminants", to the text, "regulated air pollutants".*

- **Subsection 401.4(a):** In Rule 200 draft January 21, 1999, added the text, "or any source that does not request an authority to operate under a General Permit". Subsection 401.4(a) reads: "A Non-Title V Permit is issued for a person to commence construction of, to operate, or to modify any source that does not require a Title V permit or any source that does not request an authority to operate under a General Permit".

- **Subsection 401.5(a)(4):** In Rule 200 draft January 21, 1999, added, to Subsection 401.5(a)(4), the title, "Standards Of Performance For Operating Permit Program; Applicability", to the reference, 40 CFR 70.3.

- Section 402: In Rule 200 draft April 16, 1998, revised the text of Section 402 regarding permit revocation. In Rule 200 draft October 15, 1998, moved Section 402 (Permit Revocation) to Section 408.

- Section 403: In Rule 200 draft April 16, 1998, deleted Section 403 and added and revised text similar to Rule 220, Subsection 302.1(e)(3) regarding permit termination. In Rule 200 draft October 15, 1998, moved Section 403 (Permit Termination) to Section 409. *In Rule 200 draft February 18, 1999, changed the text, "air pollution", regulated air contaminants", "air contaminants", and "subject contaminants" to the term, "regulated air pollutants".*

- Section 404: In Rule 200 draft April 16, 1998, deleted Section 404 and added and revised text from Rule 220, Section 405 regarding delayed compliance orders or consent decrees. In Rule 200 draft October 15, 1998, moved Section 404 (Permits Containing The Terms And Conditions Of Federal Delayed Compliance Orders (DCO) Or Consent Decrees) to Section 410. *In Rule 200 draft February 18, 1999, changed Subsection 404.2(c) to read: "If, while processing the timely and complete application, the Control Officer determines that additional information is necessary to evaluate or to take final action on that application, the Control Officer may request such information in writing and may set a reasonable deadline for a response. Except for minor permit revisions as set forth in Rule 210 and Rule 220 of these rules, a source's ability to continue operating without a permit, shall be in effect from the date the application is determined to be complete until the final permit is issued, provided that the applicant submits any requested additional information by the deadline specified by the Control Officer. The Control Officer may, after one submittal by the applicant pursuant to this rule, reject an application that is still determined to be incomplete and shall notify the applicant of the decision by certified mail".*

- Section 405: In Rule 200 draft April 16, 1998, deleted Section 405 and added and revised text from Rule 200, Section 407 regarding air quality impact models. In Rule 200 draft October 15, 1998, moved Section 405 (Air Quality Impact Models) to Section 413.

15

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

"Words-only" underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

- Section 406: In Rule 200 draft April 16, 1998, deleted Section 406 and added and revised text from Rule 200, Section 409 regarding permit fees. In Rule 200 draft October 15, 1998, moved Section 406 (Permit Fees) to Section 414. In Rule 200 draft January 21, 1999, changed Section 406 to read: Permit Access: Any person who has been granted a permit shall keep the complete permit accessible on the site where the permitted activity is occurring. For the purposes of this section, "complete permit" means whatever paperwork the Control Officer submits to the source as the approved permit (i.e., the permit signed by the Control Officer, and/or the permit conditions, and/or the equipment list)".
- Section 407: In Rule 200 draft April 16, 1998, deleted Section 407 and added and revised text from Rule 220, Section 407 regarding public participation. In Rule 200 draft October 15, 1998, moved Section 407 (Public Participation) to Section 415.
- **Subsection 407.1(a)(4): In Rule 200 draft January 21, 1999, added the text, "See Section 408 (Permit Revocation) of this rule for details regarding permit revocation". Subsection 407.1(a)(4) reads: "The Control Officer or the Administrator determines that the permit must be revised or revoked to assure compliance with the applicable requirements. See Section 408 (Permit Revocation) of this rule for details regarding permit revocation".**
- "New" Subsection 407.2(a): In Rule 200 draft January 21, 1999, changed Subsection 407.2(a) to read: "**All Permits Except Title V Permits: If the Administrator finds that cause exists to terminate, modify, or revoke and reissue a permit pursuant to Subsection 407.1 of this rule, the Administrator may notify, in writing, the Control Officer and the permittee of such finding**".
- "New" Subsection 407.2(b): In Rule 200 draft January 21, 1999, changed Subsection 407.2(b) to read: "**For Title V Permits: Within ten days of receipt of notice from the Administrator that cause exists to reopen a Title V permit, the Control Officer shall notify the source**".
- "New" Subsection 407.2(c): In Rule 200 draft January 21, 1999, changed Subsection 407.2(c) to read: "**Within 90 days of receipt of notice from the Administrator that cause exists to reopen a permit, the Control Officer shall forward to the Administrator a proposed determination of termination, modification, or revocation and reissuance of the permit. The Control Officer may request a 90 day extension of this limit if it is necessary to request a new or revised permit application or additional information from the applicant for, or holder of, a Title V permit**".
- "New" Subsection 407.2(d): In Rule 200 draft January 21, 1999, added Subsection 407.2(d). Subsection 407.2(d) reads: "**The Control Officer shall have 90 days from receipt of an objection by the Administrator to attempt to resolve the objection**".
- "New" Subsection 407.9: In Rule 200, Subsection 407.9 draft May 28, 1998, deleted the terms "proposed permits" and added the terms "all applications received". Subsection 407.9 now reads: "For sources listed in Rule 280, Subsection 402.2, Table B Sources, of these rules, the Control Officer shall publish once each week a list of all permit applications received".

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

"Words-only" underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

- “New” Subsection 407.10: In Rule 200, Subsection 407.10 draft May 28, 1998, deleted the terms “provide 7 calendar days for public comment from the date the Control Officer publishes a list pursuant to Subsection 407.9 of this rule. The Control Officer shall keep a record of the comments received during the public participation process” and added the terms “publish in a newspaper once each month a list of all permits issued”. Subsection 407.10 now reads: “For sources listed in Rule 280, Subsection 402.2, Table B Sources, of these rules, the Control Officer shall publish in a newspaper once each month a list of all permits issued”.

- Section 408: In Rule 200 draft April 16, 1998, moved Section 408 regarding testing procedures to Rule 200, Section 306. In Rule 200 draft October 15, 1998, moved Section 408 (Portable Sources) to Section 416.

- Section 409: In Rule 200 draft April 16, 1998, moved Section 409 regarding permit fees to Rule 200, Section 406.

- Section 410: In Rule 200 draft May 28, 1998, returned original text of Section 410 regarding portable sources. Re-numbered “Section 410” to “Section 408”.

- Section 411: In Rule 200 draft April 16, 1998, moved Section 411 regarding public records/confidentiality to Rule 100, Section 402. **In Rule 200 draft January 21, 1999, added, to the introduction of Section 411 (Accelerated Permitting), the text, “Nothing in this section shall affect the public participation requirements of Rules 210 or 220 of these rules, or EPA and affected state review as required under Rule 210 of these rules”. This text was taken from Subsection 411.3, which was deleted.**

- **Subsection 411.1: In Rule 200 draft January 21, 1999, added, to Subsection 411.1, the title, “Requesting Accelerated Permitting”. In Rule 200 draft February 18, 1999, changed Subsection 411.1 to read: “Requesting Accelerated Permitting: An applicant for a Title V permit, a Non-Title V permit, and any permit revision may request accelerated permitting. Such a request shall be submitted in writing to the Control Officer, who will follow the accelerated permitting schedule described below in Subsection 411.2 of this rule, unless the Control Officer notifies the applicant, at the time the request for accelerated permitting is made, that the request will not be granted. Title V sources and Synthetic Minor sources shall submit such a request at least seven days in advance of filing the application, but the Control Officer may waive this requirement upon request for good cause”.**

- **Subsection 411.2: In Rule 200 draft January 21, 1999, added, to Subsection 411.2, the title, “Scheduling Accelerated Permitting”.**

- **Subsection 411.3: In Rule 200 draft January 21, 1999, deleted Subsection 411.3, “Nothing in this section shall affect the public participation requirements of Rules 210 or 220 of these rules, or EPA and affected state review as required under Rule 210 of these rules”. This text was moved to the introduction of Section 411 (Accelerated Permitting).**

Underlined text represents proposed revisions per verbal comments made during Public Workshop #1 held on March 5, 1998 and during Staff Workshop held on April 2, 1998.

Double-underlined text represents proposed revisions per verbal comments made during Public Workshop #2 held on April 16, 1998, per written comments received May 1, 1998, and per Staff Workshop held on May 26, 1998.

Dotted-underlined text represents proposed revisions per written comments received after Public Workshop #3 held on May 28, 1998 and per Staff Workshops held on June 22, 1998 and on June 25, 1998.

“Words-only” underlined text represents proposed revisions per verbal and written comments received during and after Public Workshop #4 held on August 20, 1998.

Bold text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #5, which was held on October 15, 1998.

Italicized text represents proposed revisions per verbal and written comments received during and after Rule 200 Public Workshop #6, which was held on January 21, 1999.

- **“New” Section 412:** In Rule 200 draft January 21, 1999, moved Section 412 (Operation And Maintenance (O&M) Plans to Section 305. In the first sentence of the introductory sentence of Section 412, deleted the text, “either by a valid permit”. In the second sentence of Subsection 412.2, deleted the text, “in the manner and on the form as described by the Control Officer in the most recent version of the Operation And Maintenance (O&M) Plan Guidelines”. In Rule 200 draft February 18, 1999, deleted Section 412 (Air Quality Impact Models). The text of Rule 200, Section 412 is written in Rule 240 (Permits For New Major Sources And Major Modifications To Existing Major Sources).
- **“New” Section 413 (Public Participation):** In Rule 200 draft February 18, 1999, changed Section 413 to read: “413.1 Public Participation Requirements For Non-Title V Sources: Public Participation requirements for Non-Title V sources are described in Rule 220 (Non-Title V Permit Provisions) of these rules. 413.2 Public Participation Requirements For Title V Sources: Public Participation requirements for Title V sources are described in Rule 210 (Title V Permit Provisions) of these rules”. Added the text of Subsection 413.1 thru Subsection 413.7 to Rule 210. and added the text of Subsection 413.8 thru Subsection 413.10 to Rule 220.
- **“New” Appendix A:** In Rule 200 draft April 16, 1998, added Appendix A regarding the transition from the installation and operating permit program to the unitary permit program.
